Americans are feeling the pain as traitors push for the destruction of the country through record level gas prices, inflation, rising debt & spending, upswing in crime rates, open borders, attacks on our children through grooming in K-12 Sex Education classes and critical race theory, debacles in Afghanistan, & preventable wars in Ukraine! This is all deliberate to destroy America and "build it back better" through a "Great Reset," - the creation of a one world global communist government that will be hell on earth for all except the ruling elite class causing the pain.
